SPECIALIZED ROOFING SOLUTIONS FOR INDUSTRIAL FACILITIES

At Cotton Roofing, we understand the unique demands of industrial roofing projects — from large-scale logistics to minimizing downtime. Our team brings years of experience navigating complex facilities, adhering to strict safety standards and installing high-performance roofing systems. We coordinate closely with your team to ensure every phase runs smoothly and efficiently. Whether it's a full roof replacement due to a storm or an emergency roof to mitigate further damage, we deliver durable solutions with minimal disruption to your operations.

[TOTAL ROOF REPLACEMENTS]

Cotton Roofing has the experience and capacity to complete any roof replacement project, including scheduled CapEx projects or responses after weather-related losses. Putting a new roof on a business is a big, often complex job, and you can rest assured it'll be done right when partnering with us.

[EMERGENCY ROOFING SERVICES]

When disaster strikes and your roof is impacted, an immediate response is necessary to minimize damage and safeguard assets. With highly trained personnel on call and ready to act, Cotton Roofing is a trusted emergency commercial roof repair partner.

[INSURANCE LOSS EVALUATIONS]

Cotton Roofing's goal is to restore every building to its pre-loss condition. Our team has the industry experience and expertise needed to develop a detailed and accurate scope of work, which will include all damages associated with a loss. Our three-step recovery process helps get you back in business quickly:

1. Free Damage Evaluation - A roofing expert will inspect your roof for damage.

2. Step-by-Step Restoration Plan - We provide a detailed scope of work and communicate to the owner and insurance carrier the amount of damage and the appropriate replacement and cost.

3. Total Roof Replacement - Once the scope is approved, we will begin replacing the roof.

[WHY INDUSTRIAL CLIENTS CHOOSE US]

Minimal Business Disruption | Expertise in Large-Scale Projects | Long-term Roofing Solutions
